Albuquerque, N.M. 87102 (505) 247-1750

LONG RANGE HIGH CAPACITY TRANSIT SYSTEM

Albuquerque Metropolitan Planning Area

The Long Range High Capacity Transit System map reflects possible corridors that have good potential for development in the Albuquerque Metropolitan Planning Area. This map provides a framework for a long range high capacity transit system and supplements and is supplemented by, the Long Range Roadway System map and the Long Range Bikeway System map.

The High Capacity Transit network represents corridors, not general routes or specific alignments. The Future Potential Rail network reflects a potential route on existing alignments and facilities.

Adopted by the Urban Transportation Planning Policy Board of the Middle Rio Grande Council of Governments, June 27, 2002.

Hector Gonzalez, Chair
Urban Transportation Planning
Policy Board
