## PUBLIC COMMENTS AND REPORTS

### TAB 3

#### Public Comments

There were no requests from the public to address the Transportation Coordinating Committee.

**Reports**

❖ **Metropolitan Planning Organization (MPO) Staff –**

Kendra Montanari, MRMPO Transportation Planning and Technical Services Manager informed the committee that MRCOG, in partnership with the FHWA and NMDOT, is putting on an “Achieving Equity in Transportation” workshop on August 23<sup>rd</sup> & 24<sup>th</sup> in person in the MRCOG board room. The invitation has been distributed to our committees and we plan to distribute it to this group as well.

❖ **Active Transportation Committee (ATC) –**

Tara Cok, MRMPO Active Transportation Planner informed the committee that The Active Transportation Committee will not be meeting in August, but committee members will be invited to a two-day Equity in Transportation training at MRCOG on August 23 and 24 (tentative dates). The training is being led by FHWA instructors. Any MRMPO agency staff is welcome to attend but must register first. If you are interested in learning more about the training opportunity or registering, please contact Tara Cok or Kendra Montanari at the MPO

❖ **Congestion Management Process Committee (CMP) –**

The 2017 – 2021 HFIN with all the associated rates has been distributed to the CMP for review. This is still considered a draft but is not anticipated to change and will be uploaded to the Safety Dashboard on MRCOG’s website soon.

CMP had a joint committee meeting for the safety action plan, and they went over the scope and received some member feedback.

❖ **Intelligent Transportation System Subcommittee (ITS) –**

Nathan Masek, MRPO Senior Transportation Planner, informed that the ITS Subcommittee did not meet in person, but continued to work on ongoing projects, including the update to the ITS Infrastructure GIS, Phase III and IIIa of the Incident Management Plan which includes continued signal retiming along detour routes and the acquisition of supportive signal software to allow integrated traffic operations among the agencies. A contract extension is being sought from the NMDOT since the current contract is set to expire on Sep 30, 2023. MRCOG legal has amended the existing contract, and we will circulate it to the Stakeholders for key signatures. This is our second extension as unforeseen issues have delayed our progress; however, we are in the final stages of the plan with the signal re-timings; time is critical, so we appreciate a quick turnaround from the stakeholder group.

❖ **Land Use & Transportation Integration Committee (LUDI) –**

Peach Anderson-Tauzer, MRMPO Outreach, and Engagement Planner had no reports.

## ❖ **Transportation Program Technical Group (TPTG) –**

Steven Montiel, MRMPO Transportation Program Manager, informed the committee that the TPTG reviewed the Status of FFY 2023 Projects. All projects are scheduled for meeting obligation, there may be a few projects that need more attention to get them across the goal line.

Mr. Montiel also informed the committee that the Inactive projects were reviewed and the percentage of total funds unexpended is \$429,128.13 out of \$486,501,632. This equates to .09% of the entire program. It was determined that NMDOT projects are incorporated into the inactive percentage and unexpended balance. MRMPO requested that NMDOT projects always be reported on the list along with TLPAs projects to represent a true District 3 report.

Mr. Montiel concluded by informing the committee that the MRMPO also discussed the new certification requirements for TLPAs that were issued by the NMDOT Construction and Civil Rights Bureau. It was mentioned that NMDOT CCRB was invited to come talk with the TPTG to answer questions concerning the new requirement and provide clarification to TPTG. This invitation was declined by the NMDOT CCRB and executive management.

MRMPO gave a lengthy report on the coordination efforts the MPO and region have implemented for this metro area along with the monthly project delivery updates we review to ensure projects are delivered and federal dollars are kept flowing. MRMPO expressed its concern with the new certification requirements and how it will be detrimental to our TLPAs, consulting community, and possibly the MRMPO Transportation Improvement Program.

There was a regional agreement with the MPO's concerns expressed at the meeting along with the implementation of the new requirements which will place a burden on the local and tribal governments. There was unanimous support for required training but not required testing/certification of staff that is in "responsible charge" of federal funds. Most agencies are experiencing staff shortages and fear the new certification requirements will impact the delivery of projects as shortages continue. A member of NMDOT did express that all concerns were being emailed to NMDOT executive management.

Mr. Montiel reiterated that the MPO believes this requirement is burdensome on our member agencies and the private consulting community. He mentioned there was no coordination nor consideration of the transportation planning processes managed by the MPO, especially as a Transportation Management Area. Mr. Montiel also stated there are no certification requirements in the Code of Federal Regulations under Title 23 that require staff to be certified by the NMDOT. Mr. Montiel concluded by stating it is the MPO's responsibility along with the Chairs and Vice Chairs of our technical committees to be concerned about the potential implications of such a requirement.

Mr. Montiel stood for questions.

There was a discussion regarding the new certification requirements for TLPAs.
