of New Mexico**

Shifts in Work at Home 2019 through 2021

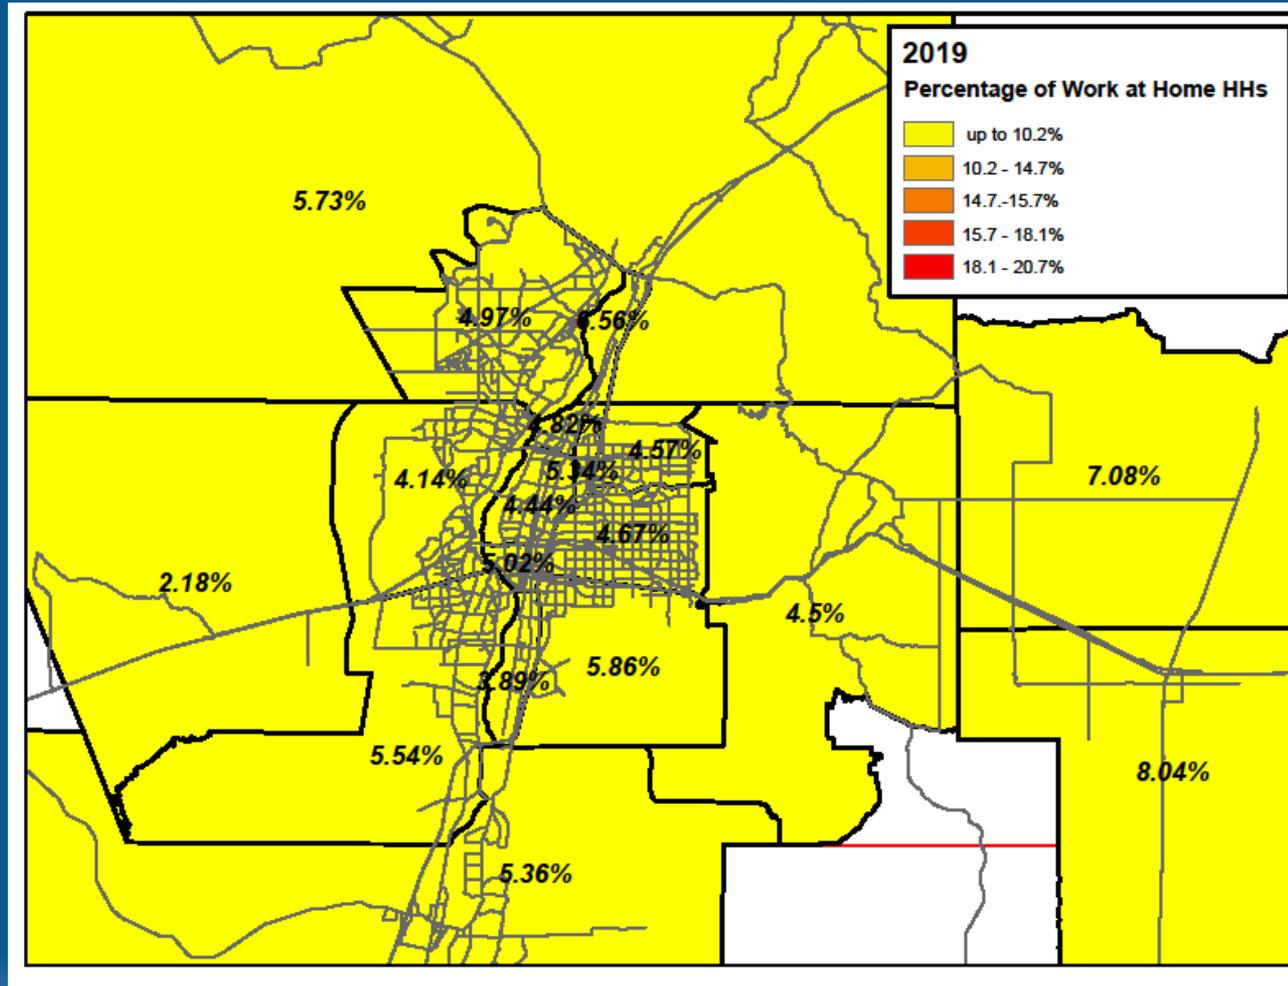

**Nathan P. Masek, AICP
Senior Transportation Planner II/Traffic
Monitoring Pgm Mgr**

Background

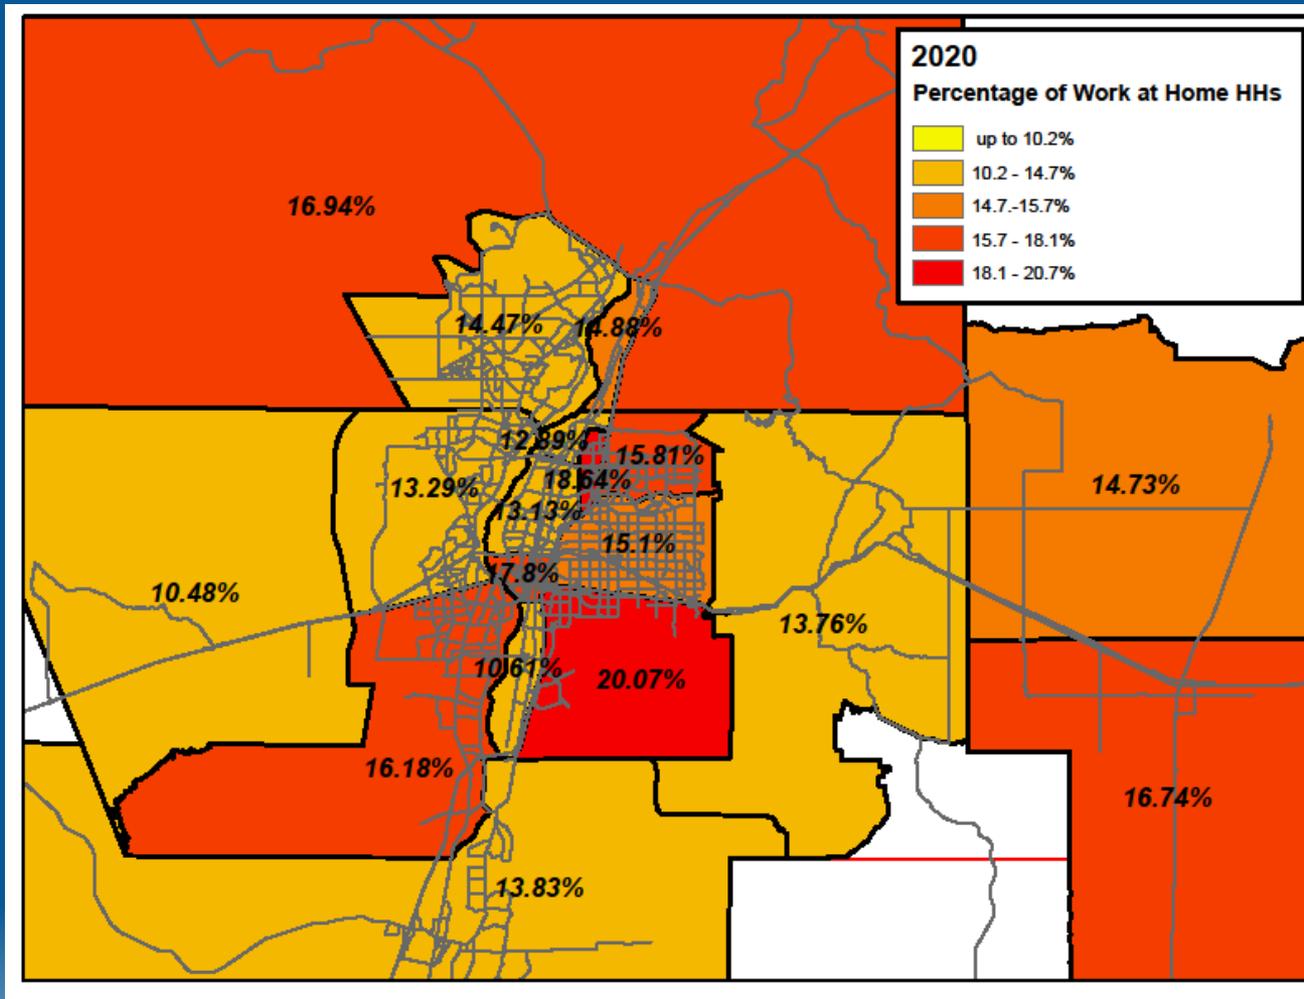

- ◆ Following the COVID-19 Pandemic of 2020, the MRCOG Traffic Monitoring Program has been playing close attention to the associated changes in travel behavior
- ◆ In addition to the traffic counts themselves, additional socioeconomic data was investigated to further identify associated causes in observed reductions
- ◆ Census/American Community Survey data revealed a profound shift in the percentages of what is termed “Work at Home” (WaH)
- ◆ Data was analyzed for the years 2019 (pre-COVID), 2020 and 2021 (during/post COVID)
- ◆ The following slides show the changes graphically; note the shifts each year among the different COVID Districts:

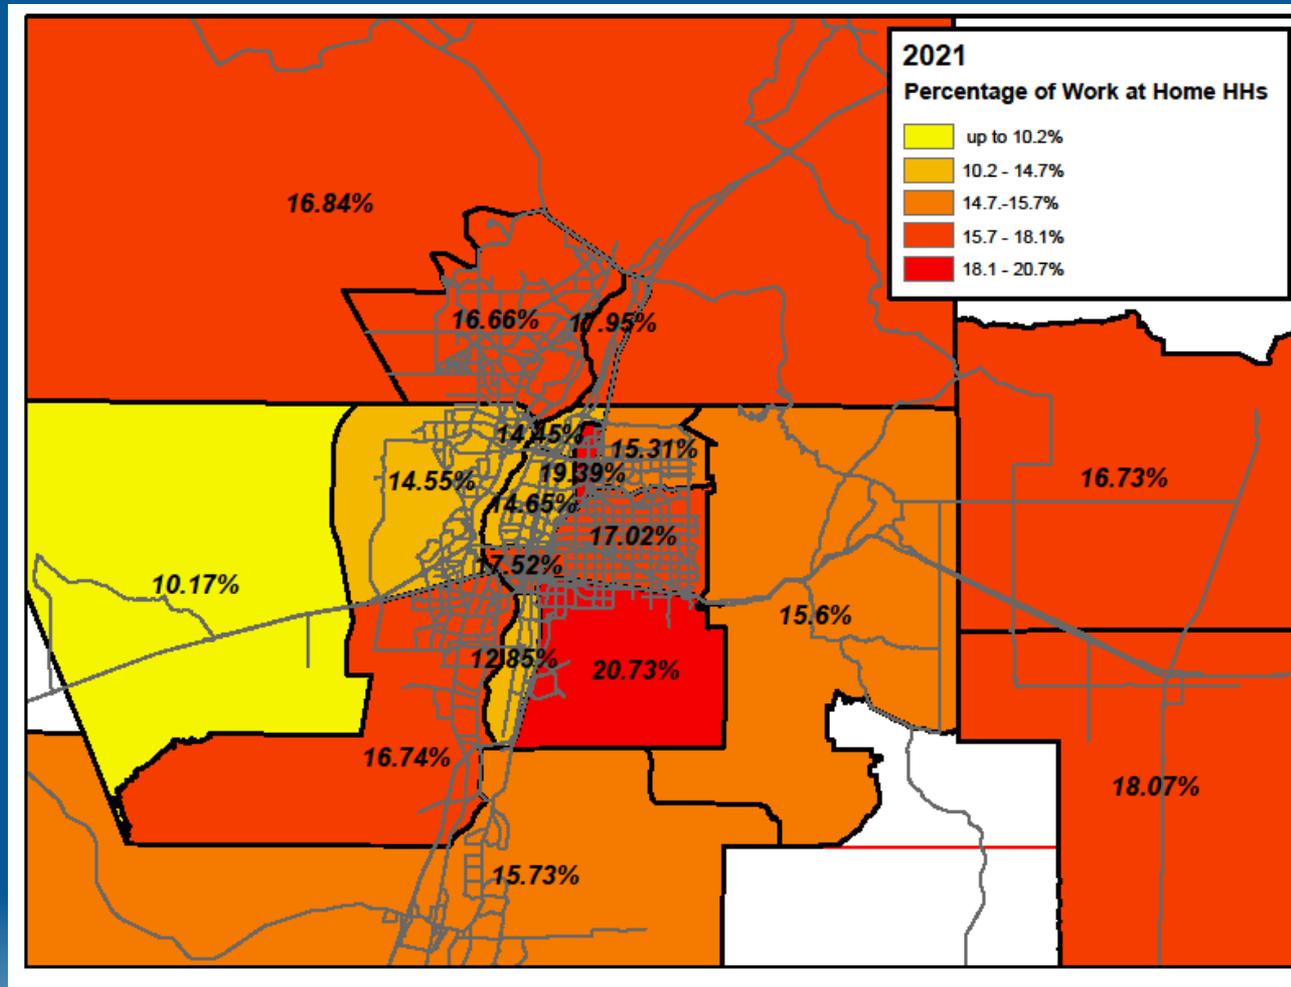

2019

2020

2021

WaH – Detailed Summary Tables:
