

# Village of Jemez Springs

## Steering Committee Survey Results

# Survey Background Information

---

Prior to the initial Steering Committee meeting held on November 19, 2014, a general opinion ranking survey was released to each Steering Committee member. This purpose of this survey was to gather initial thoughts and attitudes regarding the Village in several key areas. These areas consisted of:

- Land use and development;
- Housing;
- Transportation and circulation;
- Water and natural resources;
- Public facilities and community services; and
- Economic development

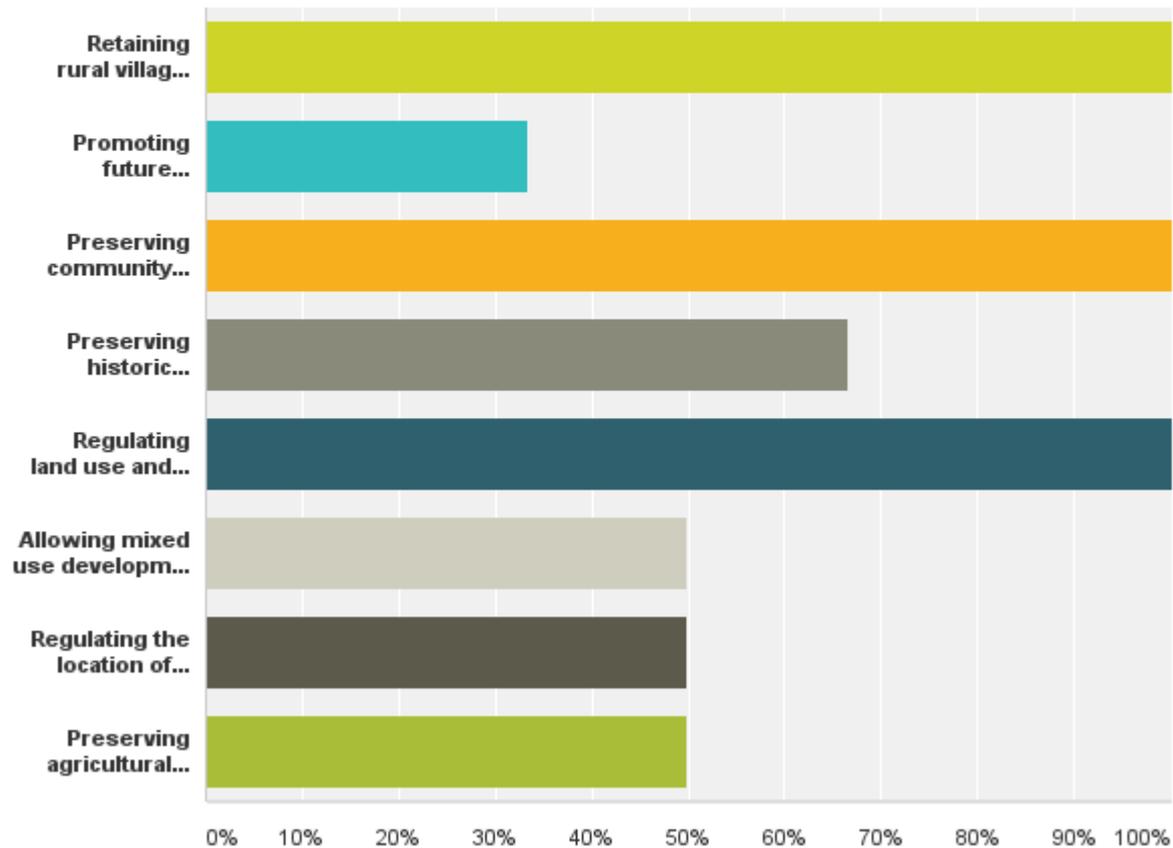

This information was initially utilized to begin the discussion regarding the development of a community-wide survey, which will in turn be used to help focus and develop the goals and objectives for the 2015 Comprehensive Plan Update.

The results of the Steering Committee survey are on the subsequent pages of this presentation document.

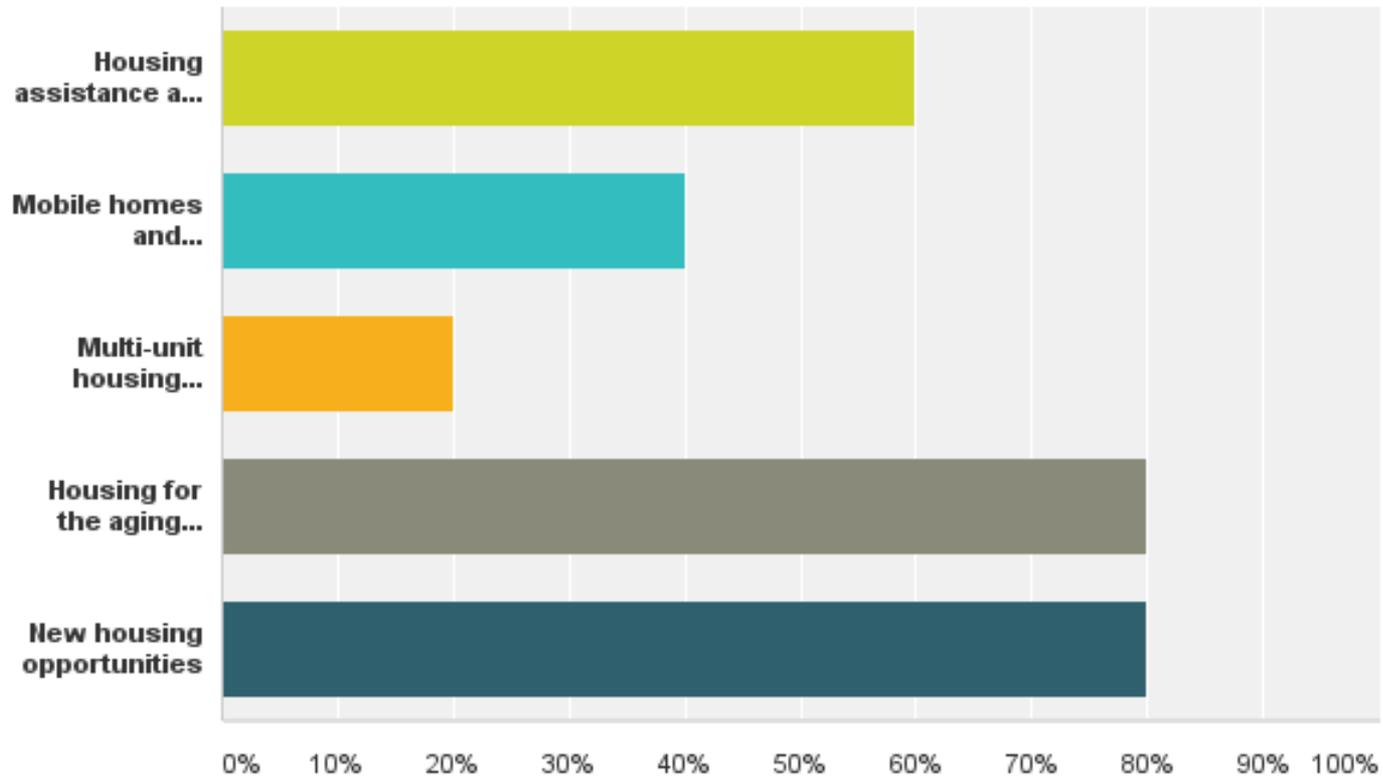

# Q1 Please select any land use and development issues and/or pressures you feel are important for the Village of Jemez Springs to consider in updating the comprehensive plan
