RE: Town of Mountainair
2024 Transportation Project Fund Application
Re: Revised Application for Roosevelt Ave. (Separating Roads)

To Whom It May Concern:

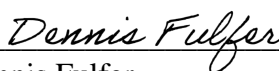

The Town of Mountainair is submitting an application for the FY24 Transportation Project Fund (TPF), for the Various Road/Street Improvements. These are major local service roads. The cost of the project per the Engineer's Estimate is \$5.2 Million. The requested funding would fund the entire project. The funding request for this phase is \$617,700.00 and would complete Phase 3 of this 8 phased project.

This project consists of rehab existing asphalt roadways, resurface existing gravel roads to asphalt, and construction management. This project will rebuild existing asphalt roadways, upgrade existing gravel roads to an asphalt driving surface and the pavement sections will consist of a minimum 3" of hot melt asphalt over either existing base or 4" of imported aggregate base course to existing pavement to be replaced, and will first be milled and to be used as a base course replacement during construction. This project has been designed in coordination with NMDOT Project No. 5101351 and is listed in the Top 5 of Mountainair's ICIP as Project No. 34711.

If Town of Mountainair received these funds, the project would start within 3 months, and construction is anticipated to be completed within 12 months. The town is currently under a Professional Services Agreement with Bohannon Huston Inc (BHI) specific to the project. The entire extent of the project is within locally owned right-of-way.
